

Hereafter the basis of adjustment will be:

In Ford sizes, plain tread, 6,000 miles; Kant Slip, 7,500 miles. All other sizes, plain tread, 5,000 miles; Kant Slip tread, 6,000 miles.

The word "adjust" is merely figurative, because in 1914 the total adjustment in Kelly-Springfield Tires for the whole United States was less than 1%. You get this unequalled service in uninterrupted mileage—not adjustment.

Before buying some other tire at a lower price analyze the basis of adjustment offered by the other maker—see what you really do get for less money.

MARINE MOWING MACHINE.

To clear off water lilies, reeds and the assorted weeds which habitually overrun shallow lakes, an Ohio experimenter has recently brought out a marine mower. The machine is described in the May Popular Mechanics Magazine. It is operated by a gasoline engine and moved from place to place by boat. The machine is so constructed that it can be used on the ordinary farm mower, and is suspended

ed beneath the boat by means of suitable rods. A gasoline engine of the type used for driving rowing boats furnishes power for the machine through the aid of a connecting shaft running down into the water. Another and similar engine drives a propeller at the rear end of the boat, and forces the whole affair against the weed beds at any rate desired by the operator.

What a benefit the government would render the state, the city, the village and hamlet if it would but tax taxes instead of property! Bonaparte said he found taxes very profitable. He got \$5,000,000 annually from the taxes of his empire, and he wanted to know what virtue would pay him that much.

Taxes increasing Each Year.

Taxes are the sinews of the state, and they are indeed heavy, but if those laid by the government were the only ones we had to pay we might more easily discharge them, but we have others, and much more grievous to some of us.

We are taxed twice as much by our ignorance, three times as much by our idleness and four times as much by our folly, and from these taxes the commissioners cannot ease or deliver us by allowing an abatement.

The state, county and town levy and exact a certain tax from every piece of property located within their boundaries, the amount depending upon the official requirements. In a rich, prosperous community, where marketing and manufacturing lend their stimulating influences, taxes are low. A community where the local town is dead taxes necessarily are high.

The explanation is easy. The town which is prosperous has successful merchants with large and valuable stocks of goods; it has manufacturing plants and industrial enterprises of great worth; it has newspapers, banking houses and hotels, and above all, it is a marketing center. The large amount and the high value placed upon this property materially decrease the tax demands made upon the farmer in that vicinity.

Streets Paved With Jimson Weeds. Then take the other town, the dead town. What are the cause and effect? The cause is lack of patronage, lack of industrial pride, disloyalty and ignorance of one's own condition and best interests. The effect? The town has become a "jay" town. In the streets have grown Jimson weeds, the side walks have gone to decay, the stores are vacant, and an air of poverty and dilapidation prevails.

Weatherproof Paint

Quick changes in weather and temperature are a severe test for any paint, but Hanna's Green Seal will "hold up" every time. It's put together with this all-weather feature in view.

Hanna's Green Seal

has been time-tried and proven. Considering the space it covers and the wear it gives, there is no cheaper paint to be had.

It helps the appearance of both cottage and mansion. Try it next time.

Children Like It
"You know it is not an easy matter to get children to take medicine, and forcing it on them does no good. Most mothers know that a cough medicine, while palatable, should contain no drug injurious to the child.

The great popularity of Chamberlain's Cough Remedy is explained by the fact that it contains no opium or narcotic of any kind, and at the same time is so pleasant and agreeable to the taste that children like

Chamberlain's Cough Remedy
For this reason alone it is a favorite with the mothers of young children."
